Current Research

1. *Trauma Recovery Scale (TRS)*. A three-part diagnostic and outcome instrument which includes a traumatic experiences inventory, an outcome questionnaire and subscales. Psychometric properties have been established. Currently comparing clinical and normative sample. Correlational analysis with Impact of Events Scale (IES) as indicator of treatment effectiveness.
2. *Accelerated Recovery Program for Compassion Fatigue*. Have completed single systems design analysis of treatment effectiveness (N = 12). Currently writing for publication.
3. *Certified Compassion Fatigue Specialist Training-as-Treatment Efficacy*. On-going study. Analysis of this training's effectiveness with participants compassion fatigue symptoms.
4. *Veterinary Compassion Fatigue: Epidemiology*. Team effort with Tuskegee University. Funded by the Smith Charitable Trust (9/01 – 9/02).

Grants
